

DIVCOM TECHNOLOGIES INC.

PRESS RELEASE

BANNER YEAR FOR DIVCOM HERALDS CHANGES

TSX Venture Symbol: DVQ-V
Shares Outstanding: 29,300,000
Montreal, December 2nd, 2003

MONTREAL, QUÉBEC: Pursuant to a banner year in growth and acquisitions, Divcom Technologies Inc. is pleased to announce that it is making the following changes:

- The Company's corporate name, Divcom Technologies Inc., has been changed to Divcom Lighting Inc.
- The December 31st fiscal year end has been changed to November 30th.
- The company's auditors are now Horwath Appel, Chartered Accountants.

The Corporation believes that these changes better reflect its business activities. Divcom is now known to be a strong contender in the lighting industry in North America, and has changed its name to reflect its domain.

The recent acquisition of Snoc Inc, which has been in business since 1954, prompted management to change Divcom's year end to fit in with its most recent, and largest, acquisition.

Since the Corporation is growing rapidly, and is realizing its plans to become a major participant in the lighting industry, the Board of Directors believes that the Corporation's needs today and in the future, requires a firm of chartered accountants who are experienced in working with public companies and are able to audit its books in a timely manner. Horwath Appel, in business since 1980, is a member of Horwath International, one of the ten largest international accounting firms worldwide. It is one of the leading chartered accounting firms in Montreal, Quebec, and is experienced in providing a full range of services to public companies.

Divcom is the parent company of an emerging group of lighting companies that manufacture architecturally designed energy-efficient lighting products for urban communities, roadway and tunnel, as well as lighting for public, commercial, industrial, residential and custom applications.

2/...

Divcom is continuing with its plans to become a major participant in the lighting industry through a disciplined combination of design, development and marketing of new products, increasing the number of its strategic alliances and acquiring complementary and profitable companies.
